Forecast for Saturday 12 Sep 2020

Weather: A cold and windy day with occasional showers, these most frequent across Lochnagar and Perthshire hills. Cold enough on the very highest tops for some wet snow, this mostly in the morning. Clouding over with some rain mid to late evening.

Chance of cloud free mountain/hill tops above 800m: 80%, some patchy cloudy between 500 and 700 metres at first across the west, and again in the evening. Otherwise only small amounts of low cloud across the east until late evening when it will become widespread.

Visibility: Outside of showers and cloud it will be very good with good air clarity. Poor later this evening at times

Freezing Level*	1400m	1300m	1400m	1500m	1700m	1900m	3000m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Be prepared for summit gales, and gusts to 70 mph across the Cairngorm Plateau making for slow progress. Hail, and wet snow on the very highest tops, will make for winter like conditions too.

Forecast for Sunday 13 Sep 2020
Weather: Cloudy in the morning with some persistent rain, this mostly across the west. Deeside may remain dry. Becoming drier and brighter from the south in the afternoon.

Maximum wind: Southwesterly 50 mph on higher ridge and summits, and 70 mph or more over the Cairngorm Plateau.

Chance of cloud free mountain/hill tops above 800m: Little chance until mid-afternoon with extensive low cloud below 700 metres, but cloud more broken in the northeast. Cloud thinning and breaking from mid-afternoon across most ranges, especially in the south and east.

Visibility: Poor at times in the rain, otherwise mainly good.

Temperature: **Glens:** Plus 10 rising to 18 Celsius
At 800m: Plus 8 rising to 13 Celsius
Freezing level: Above summits
